

MEMORANDUM FOR: Acting Deputy Director (Support)
THROUGH: General Counsel
SUBJECT: Payment of Special Insurance Premiums

OGC Has Reviewed

25X1A 1. This memorandum contains recommendations for A-DD/S approval under the provisions of Paragraph 9, [REDACTED]. Such recommendations are presented in paragraph 4.

2. The Office of Logistics, from time to time, is faced with the problem of moving explosive and other sensitive materiel to overseas destinations. In accomplishing these movements it will sometimes be necessary for Logistics employees to physically accompany the shipment. In the event these shipments move via non-scheduled air lines, the personal life insurance policies of the employee involved will usually be nullified.

3. It does not appear to be equitable that an employee should be forced to lose the financial protection he has arranged for his family when such loss is incident to the performance of a mission directed by the Agency. In addition, it is believed that a minimum amount of personal insurance should be provided, automatically, when an individual is required to accompany hazardous air shipments.

4. It is recommended, therefore, that you approve the following policies:

*Central
Approved
5/1/58*
a. Any Agency employee who is required to accompany hazardous air shipments will be provided with a \$25,000 life insurance policy at government expense for a period of time sufficient to accomplish his mission.

b. An additional amount of personal insurance will be provided employees, who are required to accompany hazardous air shipments, equal to that personal insurance carried by the employee which is nullified due to his directed mode of travel.
